

HAGUE

Hybrid Mail

Making mailing as easy as it can be!

Our Hybrid Mail solution eliminates the need to print, pack and post letters and documents from each individual branch and will provide your business with the answer to controlling ever-increasing mailing costs.

Step 1

Create your documents and letters

Step 2

Check a print preview of your document

Step 3

Once you're happy, just click 'send'

Why use Hybrid Mail?

- Save costs on envelopes, letterheads and print supplies
- Save time folding letters and packing
- Benefit from discounted postal rates
- Quick and easy to use
- Flat rate cost, perfect for small and large runs

hague-group.com

If the mail-merge is approved by 3pm, letters can be sent out the same day they are created.

Gist Case Study

Hybrid Mail in action

Gist wanted to send all their suppliers a letter advising them of the change in the registered office address

Client: Gist

Job: Change of address

Print run: 2,000

Hague mail-merged the information and formatted the data correctly for Gist's approval. The letters were then printed at a secure mailing house, where the letters were folded and placed into C5 window envelopes with a return address on the reverse.

Hague's solution included 1st and 2nd class post options, paper, envelopes and print costs. If the mail-merge is approved by 3pm, letters can be sent out the same day they are created.

"The process with Hague was straight-forward and efficient. Thank you for making this task so easy!"
